PROFILE SUMMARY

Detail-oriented 4th-year B.Tech Computer Science Engineering student with a solid foundation in software development and data analytics. Proficient in JavaScript, Python, HTML, CSS and SQL, with hands-on experience building full-stack web applications. Strong analytical problem-solver and fast learner, eager to contribute to innovative engineering teams.

EDUCATION

B.Tech – Computer Science Engineering 2023 – 2027 | CGPA: 7.50/10

HSC 2021 – 2023 | 79.83%

SSC 2020 – 2021 | 79.40%

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML, CSS, SQL

Web: Full-Stack Development, REST APIs, Responsive Web Design

Database: MySQL, SQL

Analytics: Power BI, Excel

Tools: Git, GitHub, VS Code, MS Word

Soft Skills: Analytical Problem Solving, Rapid Learning, Adaptability, Leadership

PROFESSIONAL EXPERIENCE

Web Development Intern, Spark IIT *3 Months*

- Developed and maintained responsive UI components using HTML, CSS and modern web technologies.
- Collaborated with team members to design, test and deploy functional web application features.
- Assisted with website performance optimization, front-end bug fixing and cross-browser compatibility.

KEY PROJECTS

AI Landslide Monitoring Dashboard – *Artificial Intelligence & Full-Stack Development*

- Built an interactive dashboard to monitor terrain data, visualize risk metrics and raise alerts for potential landslide hazards.
- Integrated Machine Learning / AI models to analyze sensor and geographic data for predictive hazard assessment.
- Designed a responsive interface for clear data visualization across devices.

Personal Portfolio Website – *Web Development & Design* | GitHub

- Designed and developed a responsive portfolio showcasing projects, technical skills and academic accomplishments.
- Implemented modern HTML/CSS layouts with smooth navigation and optimized page performance.
- Integrated direct contact links and social profiles for a professional digital presence.

Game Development & Designing – *Game Design & Logic*

- Designed and developed an interactive digital game focused on core logic, user experience and state management.
- Optimized performance and resolved rendering issues for smooth gameplay and responsive controls.

CERTIFICATIONS & ACTIVITIES

Certifications

- Foundations of IoT – AMB's C-DSP
- Java Course Program – QSpiders
- Full Stack Web Development – Spark IIT
- Generative AI Tools – FutureSkills Prime

Activities

- Smart India Hackathon (SIH) – Project Participation
- Takshytra – College engineering problem-solving event
- Internship Common Aptitude Test (I-CAT)
